Re: C & D Recycling Site

Dear Larry:

I am writing to provide you with an excerpt from EPA's oversight contractor's (Versar) work plan regarding the C & D Recycling Site. This language should offer both you and Fred C. Hart Associates information on the degree and extent of oversight we have projected for the field activities which will be completed in the near future. If you have any questions regarding this information, please feel free to call.

The coordination of EPA's oversight contractor and Fred C. Hart will be an essential component of a smooth and effective remedial investigation at the C & D Site. In order to facilitate this coordination of sampling activities with EPA's required splits and oversight for distinct portions of the RI, I recommend that Fred C. Hart maintain frequent and direct contact with Mr. Paul Wooldridge of Versar, Incorporated. This communication will allow for more effective and timely coordination of the on and off-site investigative tasks. Please relay this information to Fred C. Hart staff members for their future use in contacting EPA/Versar regarding the coordination of schedule adjustments for sampling activities. Thank you for your assistance and understanding.

Sincerely,

Donna M. McCartney
